PROFESSIONAL SUMMARY

Fullstack Engineer with 4+ years of experience architecting scalable web applications, secure backend systems, and high-performance user interfaces. Strong expertise in NestJS, Node.js, React, Next.js, TypeScript, PostgreSQL, MongoDB and cloud-native development.

Experienced in designing REST APIs, authentication/authorization (JWT, OAuth2), relational data modeling, payment integrations, event-driven workflows, and modular backend architectures.

Built and deployed multiple production applications across fintech, edtech, and operations. Known for taking full ownership of system design, writing clean and maintainable code, and collaborating effectively with cross-functional teams.

SKILLS

React.js	Next.js	Express.js	MongoDB	Supabase
Tailwind CSS	JavaScript	TypeScript	Node.js	MySQL
Zustand	Chakra UI	Firebase	Render	Vercel
React Query	Postman	PostgreSQL	REST	JWT
Polaris	Shopify			

EXPERIENCE

Fullstack Web Developer — Freelance

Ibadan, Oyo • Feb 2020 – Present

- Developed and engineered multiple scalable applications using React, Next.js, Node.js, TypeScript, and modern UI frameworks.
- Built backend services using Node.js, integrating databases such as PostgreSQL, MongoDB, and Firebase.
- Developed authentication systems (JWT, session-based, Supabase auth).

- Created reusable UI components and optimized frontend performance for mobile and desktop.
- Integrated third-party APIs (payments, email services, SMS, file storage).
- Managed deployments using Vercel, Render, DigitalOcean, and GitHub Actions.
- Collaborated with product owners and designers to translate requirements into functional systems.

Key Achievements

- Delivered 20+ projects across edtech, booking systems, and social tools.
 - Improved API performance by optimizing queries, caching, and architectural decisions.
 - Contributed to backend architecture for multi-role systems such as EduGrade (school management) and ShonenList (media catalog platform).
-

Frontend Engineer — Pyvot360

Ibadan, Oyo • Feb 2020 – Apr 2022

- Built responsive interfaces and optimized web usability across devices.
 - Improved code quality and component reusability through refactoring and documentation.
 - Collaborated with the UI/UX team to implement accessible design patterns.
 - Enhanced performance and SEO for client-facing websites.
-

EDUCATION

B.Tech — Information Systems

Federal University of Technology, Akure (FUTA)

• 2025

OND — Computer Science

Federal College of Animal Health & Production Technology, Ibadan

• 2020

CERTIFICATIONS

- HackerRank — JavaScript Intermediate (2023)

- HackerRank — React.js Basic (2023)
